

100's of businesses are using ezyCollect to improve their cash flow and to get paid faster.

Today it's your turn.

Tired of chasing payments?

Introducing ezyCollect. A secure cloud based application that integrates with your accounting software. It determines which invoices are overdue, by how long, and then gives you the ability to automate, schedule and distribute personalised communication reminders... All so you can get paid faster and with much less effort.

The result, improved cash flow and profitability for your business.

AUTOMATED

ezyCollect automates your entire receivables management process. From the moment the invoice is sent, to the day you get paid.

INTEGRATED

ezyCollect syncs with your current invoicing application so you don't have to enter any data manually.

PERSONALISED

ezyCollect personalises communication so that your customer is more than just a number.
